Table of Contents vi
List of Figures viii
I. Introduction 1
   A. Description of the Study 2
   B. Significance of the Study 2
   C. Objectives of the Study 3
   D. Scope and Limitations 3
   E. Date and Place of Study 4
   F. Company Profile 5
   G. Training Activities 6
II. Review of Related Literature 8
   A. Types of excitation System 9
      A.1. Static Type Excitation System 9
      A.2. Brushless Type Excitation System 12
   B. Basic Static Excitation Configuration 13
   C. Legacy of Static Excitation Systems 14
      C.1 Electrical Requirements of a Static Excitation System 15
         C.1.1 Sensing Requirements 15
         C.1.2 Field Power Requirements 16
      C.2. Sources of excitation Power for an Excitation System 16
III. Study Methodology 20
IV. Discussion and Analysis 23
   A. Excitation System Description 24
      A.1. Excitation Transformer 25
      A.2. Rectifier Cubicle 28
         A.2.1 Rectifier 28
         A.2.2 Air Cooling System 29
      A.3. Input Cubicle 29
         A.3.1 Field Flashing Circuit Breaker 29
         A.3.2 Over Voltage Protection 30
         A.3.3 De-excitation Equipment 30
      A.4 Control Cubicle 31
         A.4.1 Control Cubicle Power Supply 31
         A.4.2 SYMADYN-D OP1 Local Operator Panel 31
   B. Operation 33
   C. System Protection 38
      C.1 Limiters 39
      C.2 Protective Relays 41
V. Observations 42
VI. Conclusions 44
VII. Recommendations 47
